## Data & Business Intelligence Analyst

Bandung, Jawa Barat | +62 813-8521-4581 | bayuramadhan30@gmail.com

LinkedIn: <https://linkedin.com/in/bayurama30> | Portfolio: <https://bayuramadhan.space.z.ai>

### PROFESSIONAL SUMMARY

---

Data & Business Intelligence Analyst with 3+ years of experience in Telkom Group, specializing in transforming complex operational data (AO, SO, DO, MO, RO) into actionable business insights. Proven track record in KPI monitoring, revenue assurance, and process automation using SQL, Looker Studio, and Google Apps Script. Passionate about leveraging data analytics to drive operational efficiency and enable data-driven business decisions. Founder of a local ISP with hands-on experience in end-to-end network operations and customer analytics.

### CORE SKILLS

---

**Data Analysis & BI:** SQL (Oracle, MySQL) | Google Sheets (Advanced + Apps Script) | Excel | Looker Studio | Power BI | Data Cleaning & Validation

**Business Process & Monitoring:** B2B Order Lifecycle (AO–RO) | LOP/LOB Management | Revenue Assurance | BASO Monitoring | KPI Tracking | Contract & Revenue Analysis

**Automation & Tools:** Google Apps Script | Telegram Bot Integration | Automated Reporting | Workflow Optimization | Dashboard Design

**Technical Domain:** Telecom Operations | ISP Management | Networking (Mikrotik, PPPoE, FTTH) | Network Design & Troubleshooting

**Soft Skills:** Stakeholder Coordination | Problem Solving | Training & Knowledge Sharing | Cross-functional Collaboration

### PROFESSIONAL EXPERIENCE

---

#### Technical Support / Data Analyst – RLEGS REG 2

Jul 2023 – Present

PT Telkom Indonesia (Telkom Group) | Bandung, Indonesia

Full-time

- Automated weekly B2B performance reports using Google Apps Script, reducing manual reporting time by ~60% and improving data accuracy for 200+ active orders
- Developed Looker Studio dashboards to monitor AO–RO order ageing, enabling team to prioritize backlog orders and accelerate Billing Complete (BC) cycle by 25% quarter-over-quarter
- Conducted revenue variance analysis using Oracle SQL, identifying discrepancies in B2B orders and supporting Revenue Assurance initiatives for BASO >2 months
- Collaborated with Sales, Finance, and Operations teams to align KPIs and improve order-to-cash cycle visibility across regional units
- Coordinated monitoring of enterprise & government service orders to ensure timely billing completion and minimize revenue leakage

**Technical Support – BGES REG 3***PT Telkom Indonesia | Bandung, Indonesia***Dec 2021 – Jul 2023***Full-time*

- Analyzed connectivity and sales data (Astinet, Wi-Fi) for 50+ enterprise accounts using Oracle SQL, supporting target evaluation and churn reduction strategies
- Built a Telegram bot for daily operational alerts and performance summaries, cutting response time to critical issues by 40%
- Created interactive dashboards in Google Looker Studio to visualize regional sales performance and service adoption trends
- Supported Revenue Assurance monitoring by flagging BASO orders >2 months, contributing to proactive backlog mitigation and process improvement

**Special Team Pijar Sekolah – BGES REG 3***PT Telkom Indonesia | Bandung, Indonesia***Feb 2021 – Nov 2021***Special Assignment*

- Delivered training and onboarding for Pijar Sekolah e-learning platform across 65 schools in West Java, achieving 90%+ adoption rate post-intervention
- Built a web-based monitoring system to track training progress and user engagement, enabling real-time reporting to management
- Analyzed user feedback and usage data to recommend content improvements, increasing platform engagement by 50%
